The Room-by-Room Deep-Clean Checklist

The same order our team follows to reset a home top to bottom. Work one room at a time, top to bottom, left to right—and check off as you go.

TOP TO BOTTOM

Dust and clean high surfaces first so anything that falls lands on floors you haven't done yet.

ONE ROOM, FULLY

Finish a whole room before moving on. It keeps momentum and stops half-done rooms piling up.
